

Black Diamond Launches Brilliant Screen Cleaning Wipes. Brilliant Screen Cleaning Wipes are Safe for all Tablet, Laptop and Touch Screen Computers.

Black Diamond a leading provider of high end specialty cleaning products is proud to announce the release of Brilliant Screen Cleaning Wipes for the safe cleaning of fingerprints and grime from all touch screen devices.

San Clemente, CA ([PRWEB](#)) July 07, 2011 -- Black Diamond has been producing specialty cleaning products since 1998 that are not only effective but are safe as well. With the explosion of touch screen (iPad), tablets and the need for laptop screen cleaners it was a natural progression to create a line of products to care for them without causing damage. Our Research lead to developing a two-part wipe made from a special wipe material and cleaning solution designed for high end touch screens to remove fingerprints and grime.

www.getcleanersonline.com

Black Diamond in response to the need for a alcohol and ammonia free cleaner for all touch screen devices, laptops and tablets developed [Brilliant Screen Cleaning Wipes](#). Traditional cleaners often contain alcohol and ammonia and are either not effective or can even damage the screen and the plastic body. Black Diamond's two part wipe includes a wet wipe, free of alcohol and ammonia, for cleaning and a dry towel for drying the screen. The wipe material was developed by DuPont for sensitive electronics. The constant touching of the screens adds oil, fingerprints and dirt to the screen adding to the need for frequent cleaning. Brilliant screen cleaning wipe with SR-8 provides gentle, superior cleaning to electronic screens and removes dust, dirt, finger prints and makeup while imparting an invisible, durable barrier that protects screens 50 times more from scratching. Helps protect against re-soiling to keep your screen brilliantly clean!

Important Safety and Handling Information from Apple for the iPhone and iPad products reads "Don't use window cleaners, household cleaner, aerosol sprays, solvents, alcohol, ammonia, or abrasives."

Consumer and blogger response has been overwhelmingly positive.

With the explosion of touch screen (iPad), tablets and the need for laptop screen cleaners it was a natural progression to create a line of products to care for them with out causing damage.

About Us.

Black Diamond Stoneworks was founded in 1997 with the simple belief that quality, value, and performance never go out of style. We started with five cleaning and sealing products for natural stone and ceramic tile. Due to their huge success our product line has continued to grow and now numbers over 30 superior products!

Our philosophy to identify a customer's need and then produce the highest quality product to fulfill that need continues to drive our growth and success.

We are so sure that our products will perform as advertised, we offer a "money back satisfaction guarantee" on our entire line. At Black Diamond Stoneworks "We Make Cleaning Easy".
